

MYSPOT

worden MySpot

We've created the kind of space where everybody loves to hang out.

It's fun. A little funky. And just as suited to teaming with a friend as it is to working alone. More welcoming than a study carrel and much more private than a table, MySpot is the kind of place where everyone feels at home.

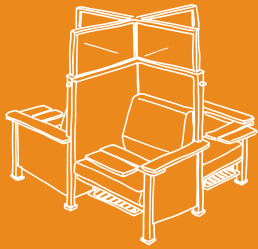

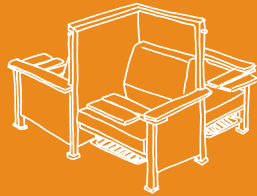

It's not just a table or a desk.

MySpot gives children a cozy, private, and totally unique space where they can turn pages with a parent or friend. It's the kind of place where the love of reading begins.

1-Spot

We wouldn't call it MySpot without giving you plenty of ways to make it your own. Start with 1, 1-1/2, 2, 2+2 or 4-Spot configurations. Get creative with endless choices in fabrics and finish. Then add a screen or a canopy to create the perfect spot for anything from shared study to reading with a child.

MySpot can help you carve out private space in the midst of a busy room.

Instead of shared table space, it offers a more relaxed, personal environment. And using no more space than a study carrel, it creates a comfortable island you can escape to, alone or as a group.

## This is MySpot.

### FEATURES

- Superior ergonomic comfort
- Patent-pending design and tablet mechanism
- Stowable tablet arm swings 360°

### MATERIALS
