

BCI Media Tower

Design: BCI

BCI

Media Towers from BCI

The ultimate display tower for accommodating various media and new book display. BCI's Media Tower is constructed from 1-1/4" diameter round steel tube and available in two heights including 152 cm (60") and 182 cm (72").

Six different shelves are offered which nest in a complex chrome wire carriage system that provides an airy, almost floating appearance.

Depending on the selected height, sixteen to twenty shelves can be contained within the tower.

Available in all standard steel colours from BCI.
